E-commerce. | Digital Taxation.

# Assessment.

Assessment of EDBA semester III consists of,

- **Self-assessment questions**

Some modules are included self-assessment questions for you to assess the level of knowledge of the subject area gathered in the classroom. **These questions are not form part of your final assessment.** If you attempt them diligently it will help you to achieve the desired result expected from this course.

- **Group Assignments**

This consist of two parts, case analysis report and presentation of the findings. Hardcopies of your assignments should be submitted to your course coordinator at the Business School and the softcopies to be submitted to damithlk@gmail.com on or before the due date. Late submission will not be considered for marking.

- **Examination**

At the end of semester there will be a written exam. Question paper consists with three sections with maximum of five or six questions for 100 marks.

**Section A** consists with 10 MCQs and two marks allocated for each question. All questions of this question is compulsory to answer.

**Section B** consists with two or three questions to test the practical understanding of tax computation. This section questions will carry 60 marks.

**Section C** questions cover module 6 to 9. There are one or two questions in this sections and allocated 20 marks.

## Details of Assessment

| Assessment type      | Marks | Wtg % | Pass mark | Due date                   |
|----------------------|-------|-------|-----------|----------------------------|
| Case analysis report | 100   | 35    | 25%       | 10 <sup>th</sup> June 2016 |
| Presentation         | 100   | 15    |           | 18 <sup>th</sup> June 2016 |
| Examination          | 100   | 50    | 25%       | 09 <sup>th</sup> July 2016 |

## Group Assignment

| Type of the Assignment   | Marks | Length                          |
|--------------------------|-------|---------------------------------|
| Compliance Report        | 35%   | 2,500 words max.                |
| Presentation of findings | 15%   | 8-10 slides max. for 15 minutes |

Assume that your team is planning to start a business in Sri Lanka. Business can be carried out in different forms. It can be a corporate entity or unincorporated entity. Depending on the business entity, types of compliance and tax liability will be varied. Compare and contrast the compliance structure of different types of business entries exist in Sri Lanka and identify the ideal business type fit for your business with the proper reasoning.

**Your compliance report should cover the following areas.**

1. Executive summary.
2. Table of contents.
3. Introduction (state why the report has been prepared and how the report is structured).
4. Overview of the Company (background of the business, Vision & Mission, organizational structure, Key business operations etc..).
5. Different business types exist in Sri Lanka.
6. Compliance dashboard of each business type.
7. Compare and contrast the compliance structure of different types of business.
8. Business type fit for your business and reason for selection.
9. Evaluate the compliances to be adhered by your business.
10. Conclusion.
11. List of references.
12. Appendices.

### **General Information:**

- The report should have a cover page to include a meaningful title, Name of your group, date, course name and Semester, Subject and the lecture, Word count etc.
- Evaluation Criteria should be included in the second page.
- Group members detail should be provided in the third page.
- Harvard referencing system should follow to cite your source. A full list of references in alphabetical order must be included.
- You may include any additional supporting information in the appendices. Information in the appendices should only be included if it is relevant and referred in the report.
- Report should be used Times New Roman 12 point font with double line spacing.

## Evaluation Criteria:

| Marking Criteria   |   | Maximum Marks      | Marks Obtained |
|--|---|--------------------|----------------|
| Compliance Report  | <b>Understand the Firm and its operations.</b><br>Students should provide enough information to enable the reader to understand what the business is and its operations.  | 8                  |                |
|  | <b>Compare and contrast the compliance structure of different business types.</b><br>The level of understating of different business types and compliances they need to adhere.   | 12                 |                |
|  | <b>Identify and evaluate the compliance structure of the selected business</b><br>Find out the suitable business types and applicable compliance and regulatory requirements and understanding of compliance dashboard.   | 10                 |                |
|  | <b>Structure of the Report and Referencing</b><br>Your list of references should adhere to the Harvard referencing style. Use of current materials and facts related to the business, Clear headings and subheadings, Correct labelling of tables, diagrams and appendices. | 5                  |                |
|  | <b>Organising PowerPoint presentation</b><br>The content of the presentation should be organised in a logical manner and interesting sequence, that is easy to follow.  | 3                  |                |
|  | <b>PowerPoint slide design and layout</b><br>Each slide should present one central idea with supporting facts, and is visually pleasing and not overloaded.   | 3                  |                |
|  | <b>Delivery</b><br>Presenter should convey a clear, cogent and coherent argument to support your evaluation and findings.   | 5                  |                |
|  | <b>Conclusion and recommendations</b><br>The conclusion should summarise the key points of your presentation. The recommendations should highlight the findings and leanings you gathered.  | 4                  |                |
|  | <b>Total (I) =</b>  | <b>50</b>          |                |
| Penalties  | • Evidence of plagiarism or collusion   |                    |                |
|  | • Spelling and grammatical errors   |                    |                |
|  | • Late submission   |                    |                |
| <b>Total (II) =</b>  |   | <b>(Max. – 50)</b> |                |
| <b>Final Marks (I) – (II) =</b>                                  |   |                    |                |
| <b>OVERALL COMMENTS:</b><br><br><br><br><br><br><br><br><br><br> |   |                    |                |

## Study Schedule

| Session | Date       | Module   | Activity                     | Reading  | Assignment                              |

**Section A**  
**Module 1 - 4**

# Module 1: Principles of taxation.

Outline:

- Economic and Social Functions of Taxation.
- Difference between Accounting Profit and Taxable Profit.
- Principles of Taxation.
- Basis of recognition of profits and income
- Residential status
- Difference between direct and indirect tax.

## 1.1 Introduction

Tax is central to all business decisions. Ever-increase body of legislation, precedent and practices demand professionals to have technically correct and commercially sound knowledge in taxation.

## 1.2 What is Tax?

There is no universally agreed definition for tax. Tax is a price paid by the citizen for their wellbeing and civilization. It is a compulsory charge imposed by the government. Tax may not have direct benefit but indirectly it is benefited to the public at large.

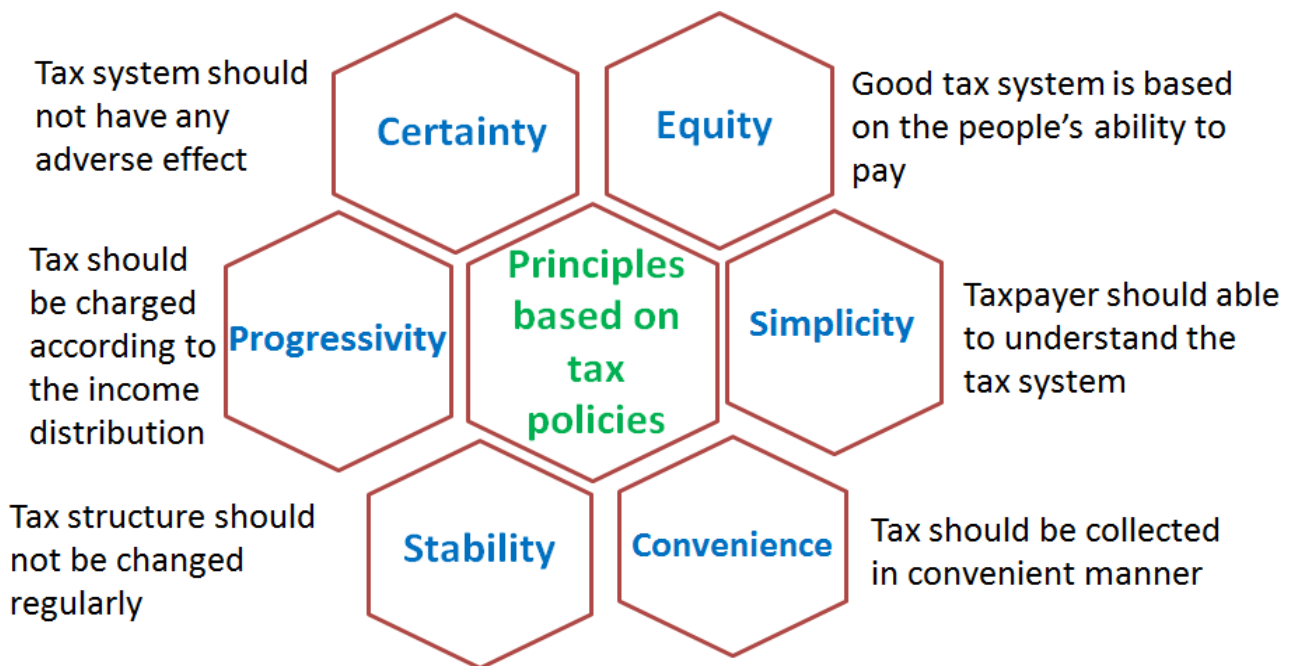

## 1.3 Economic and Social Functions of Taxation.

Government is facing the following fiscal pressure in the 21st Century. The main objective of collection of taxes to spend for various economic and social activities and infrastructure development of the country.

- Ageing population
- Pressure to support for education and social welfare
- Pressure for Infrastructure
- Pressure to reduce taxes
- Transition from manufacturing based economy to services based economy

## 1.4 Functions of Taxation.

Tax is a personal obligation of the people. People should tax according to their ability to pay. Therefore, tax policies are framed based on certain principles. They are equity, certainty, simplicity, progressivity, convenience and stability.

## 1.5 Sources of Statutory Provisions.

To understand Income Tax, we need to have an understanding of the sources of tax law in the Country.

### Primary Sources of tax law

- Statutory Sources
  - Inland Revenue Act
- Administrative Sources
  - Revenue Ruling
  - Gazette Notifications
  - Interpretation of provisions
- Judicial Source

### Secondary Sources

Secondary sources are not themselves the law but provide commentary on a particular subject.

- Guidelines
- Commentaries
- Text books /Handbooks
- Legal dictionaries

## 1.6 Difference between Accounting Profit and Taxable Profit.

**Accounting Profit** is the amount reported in accordance with accounting standards.

**Taxable Profit** is the Net Profits & Income derived from any sources for any year of assessment.

### 1.6.1 Define the Profits & Income.

IRD Act does not define what is profit and income. It is merely described the sources of profits and income and prescribed the methods of computing income.

Income and capital is not necessarily conclusive. What is paid out of the profits may not always be income. One has to look at all the relevant circumstances and reach a conclusion according to the general tenor and combined effect.

*[Lord Mac Dermot, Harry Ferguson Motors Ltd Vs. CIR (33 TC 15)]*

The name given to transaction does not necessarily decide the nature of the transaction. The question always what is the real character of the payment and not what the parties call it.

*[I.R Vs. Wesleyan General Assurance Society (30 TC 11)]*

The words Profit and Income are clearly not synonymous. They are not to be used interchangeably or indiscriminately.

*[Soertuz J, Ceylon Financial Investments Ltd Vs. CIT (1 CTC 206, pg 252)]*

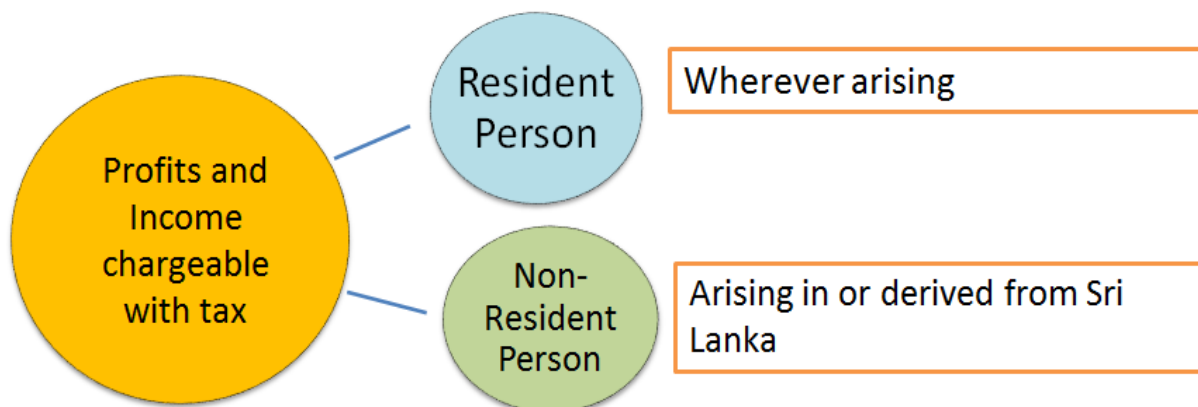

Anything in the nature of capital accretion is excluded as being outside the scope and meaning of the act.

*[Rowlatt J, Ryall Vs. Hoare (8 TC 521)]*

### 1.6.2 Income & Capital Receipt.

### 1.7 Basis of recognition of Profits and Income.

[S2(1)/2006-10]

#### 1.7.1 Component of Profits & Income:

- Profits from Trade, Business, Profession or vocation.
- Profits from employment.
- Net Annual Value (NAV).
- Occupier's Income.
- Dividends, Interest or discounts.
- Charges or Annuity.
- Rents, Royalties or Premium.
- Winning from a Lottery, Betting or Gambling.
- Money received by a NGO.
- Profits from any other sources

[S3/2006-10]

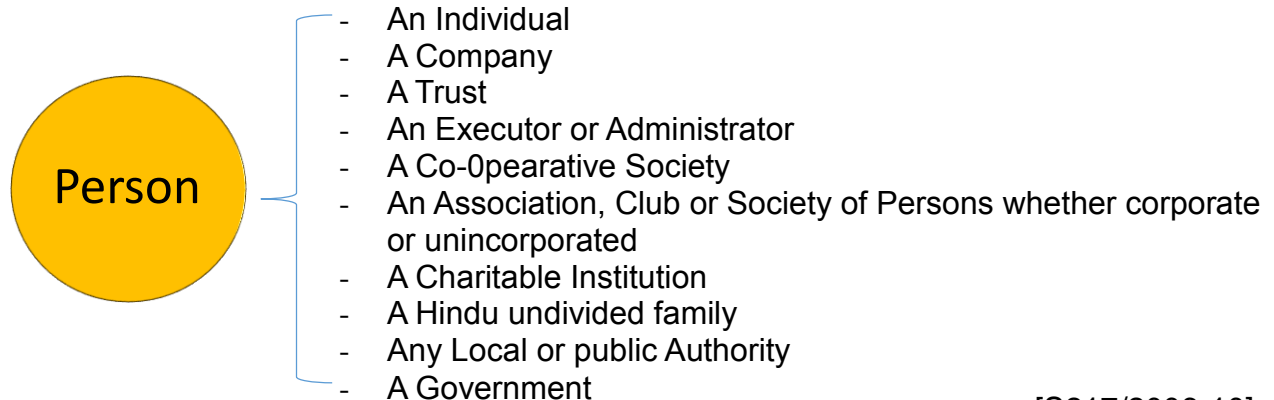

## 1.7.2 Measurement of Profits & Income

Profits or Income means the net profit or income from any source for any period calculated in accordance with the provisions of the Inland Revenue Act.

[S217/2006-10]

## 1.8 Residential Status.

Tax is levied on person. Person includes a Company or body of persons or any government.

[S217/2006-10]

### 1.8.1 Residential Status of Individual.

Residential status important in taxing individuals in Sri Lanka.

[S79 (2)-(6)/2006-10]

### 1.8.2 Residential Status of a Company or Body of Persons.

Company means, any Company incorporated or registered under any law in force in Sri Lanka or elsewhere and includes public corporation.

Public Corporation means, any corporation, board or other body which was or is, established by or under, any written law, other than the companies Act, No 7 of 2007, with capital wholly or partly provided by the Government, by way of grant, loan or other form.

[S217/2006-10]

[S79 (1)/2006-10]

### 1.8.3 Year of Assessment (YA).

Income tax is charged on a current year basis. A Year of Assessment is the 12 months period commencing from Residential 1st April to 31st March in the following year.

All accounts of trade, business, profession or vocation are to be made up for the period specified above.

[S28 (2)/2006-10]

CGIR may allow taxpayer to deviate from the general rule but not legally empowered to revoke such decision.

[S28 (3)/2006-10]

## 1.9 Direct Tax & Indirect Tax

**Direct Tax** is a tax that is paid directly by an individual or organization on whom it is imposed. Direct tax cannot be shifted to another individual or entity. The individual or organization upon which the tax is levied is responsible for the fulfilment of the tax payment. Indirect taxes, on the other hand, can be shifted from one taxpayer to another but direct tax cannot be passed on to others. In Sri Lanka Income Tax is the main Direct Tax.

**Indirect Tax** is the tax that increases the price of a good so that consumers are actually paying the tax along with the price of the goods. Indirect tax is most often not born by the person on whom is levied. It is shifted from one taxpayer to another, by way of an increase in the price of the good. VAT, NBT are the indirect tax in Sri Lanka.

## 1.10 Practice Questions

### **e** 1.1

Mr. Sunimal's movements during the YA 2013/14 & 2014/15 are as follows,

| <u>Arrival</u> | <u>Departure</u> | <u>Period of stay in SL</u> |
|----------------|------------------|-----------------------------|
| 01.05.2013     | 25.06.2013       | 56 days                     |
| 18.08.2013     | 20.11.2013       | 95 days                     |
| 22.12.2013     | 13.01.2014       | 23 days                     |
| 24.03.2014     | 05.05.2014       | 43 days                     |
| 31.07.2014     | 28.12.2014       | 151 days                    |
| 15.10.2015     | -                |                             |

**You are required to assess the residence status of Mr. Sunimal for the YA 2013/2014 & 2014/2015.**

### **e** 1.2

Date of arrivals and departure of Ramalin are as follows.

| <u>Arrival</u> | <u>Departure</u> |
|----------------|------------------|
| 10.06.2013     | 10.08.2013       |
| 15.09.2013     | 15.12.2013       |
| 25.01.2014     | 10.03.2014       |
| 05.04.2014     | 30.09.2015       |
| 25.01.2016     | 05.02.2016       |
| 10.02.2016     | 25.02.2016       |
| 02.11.2016     | -                |

**You are required to assess the residence status of Ramalin.**

### **e** 1.3

Where a company has its registered office in Sri Lanka or principle office in Sri Lanka and the control and management of its business are exercised outside Sri Lanka deemed to be a resident company in Sri Lanka.

- 1). The above statement is correct.
- 2). The above statement is incorrect.
- 3). No relevance to tax law.
- 4). Described the non-resident company.

## Module 2: Profits and income chargeable with tax.

Outline:

- Basis for Chargeability of Income Tax
- Types of profits and Income
- Sources of Profits and Income.
- Measurement of Profits and Income

### 2.1 Basis for Chargeability of Income Tax

Unless a person brought within the charge imposed by Section 2 cannot be taxed.

The profits and income of any person has been arisen or derived for any year of assessment is chargeable with tax is the subject matter for Income Tax.

The Income Tax Act..... impose a territorial limit; either

- (1). That from which the taxable income is derived must be situated in the United Kingdom, or
- (2). The person whose income is to be taxed must be resident there.

[Lord Herschell in *Coloquhoun Vs. Brooks* (2 TC 490)]

#### 2.1.1 Incident of Income Tax

Income tax shall, subject to the provisions of this Act, be charged at the appropriate rates ....., for every year of assessment ..... in respect of the profits and income of every person .....

- (a) wherever arising, in the case of a person who is resident in Sri Lanka...; and
- (b) arising in or derived from Sri Lanka, in the case of every other person.

[S2/2006-10]

#### 2.1.2 Arising in or Deriving from Sri Lanka.

The word arise means, to spring up, originate, to come into being or notice, to come operative....

Therefore profits and income must accrue for the benefit of a person to charge.

The word derive means, to receive from a specific source, proceeds from property.....

[Black's Law Dictionary, 6th Edition]

### 2.1.3 Place where the profits and income arising in or deriving from.

The word derived implies that the source of the profits or income must be from Ceylon..... In my opinion these two words “arise” and “derive” were meant to include the case of the Ceylon Company when it makes any profits or gets any income for anything done in Ceylon.....

[Akbar J. in Anglo Persian Oil Co. Ltd Vs. CIT (1 CTC 82)]

If he has rendered a service or engaged in an activity such as the manufacturing of goods, that profits will have arisen or derived from the place where the service was rendered or the profits making activity carried. But the profit was earned by the exploitation of property assets by letting property, lending of money or dealing in commodities or securities by buying and reselling at a profit, the profits will have arisen in or derived from the place where the property was let, the money was lent or the contract of purchase and sale was effected.

[Lord Bridge in Hang Seng bank Ltd (1 AC 306, 1991)]

## 2.2 Types of profits and Income

Profits and income arising or derived from Sri Lanka is include,

- a). Services rendered in Sri Lanka
- b). Property in Sri Lanka
- c). Business Transacted in Sri Lanka

[S2/2006-10]

### **a). Services rendered in Sri Lanka**

Profits and Income arise at the place where the services are rendered and not the place where the contract of, or for services is concluded. The rendered implies that the place where the actually perform the services.

Eg: employment, professions, vacation, carried on in Sri Lanka

### **b). Property in Sri Lanka**

Property defined to include any interest in any movable or immovable property (S163/206-10).

Eg: rent from house, dividends, interest.

..... the two ships.... belongs to the appellant were not passing through Sri Lanka but were in Sri Lanka water from 1985 to September 1986. .... take the view that..... clearly established that the appellant's ship constitute property in Sri Lanka.....

[Somawansa J in Trust Union Shipping Corporation Vs. CGIR (3 SLR 43, 2003)]

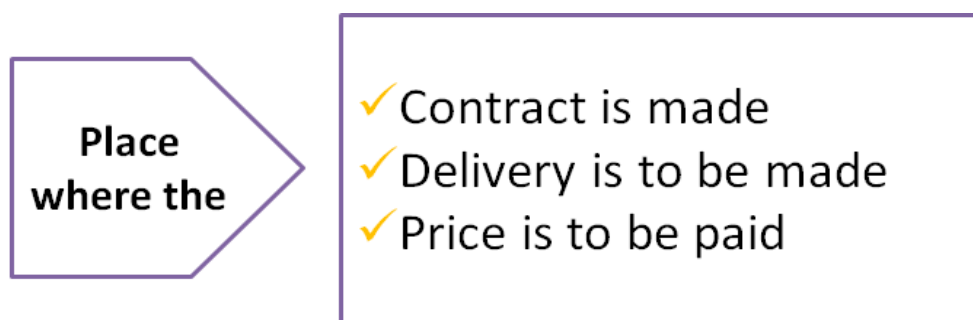

### c). Business Transacted in Sri Lanka

Business is defined in the act to include, an agricultural undertaking, the racing of horses, the letting or leasing of any premises including any land by a company or forestry.

The trade is defined to include, every trade and manufacture and every adventure and concern in the nature of trade.

Eg: agriculture, industrial or other business carried on in Sri Lanka.

#### 2.2.1 Determine the place where the business transacted

### 2.3 Profits and Income.

Profits and income of any person in respect of the tax is chargeable is the net profit and income from every source calculated in accordance with the provisions of the Act [S217-10/2006]. In the other hand the profits and income calculated in accordance with the provision of the Act is constituted as the statutory income.

#### 2.3.1 Sources of Profits and Income.

Section 3 of the Inland Revenue Act No. 6 of 2006 enumerated the sources of profits and income chargeable with tax.

- 1). Profits from any trade, business, profession or vocation
- 2). Profits from any employment
- 3). Profits from immovable property
- 4). Income from interest
- 5). Income from dividends
- 6). Charges or Annuities

- 10). Income any source other than casual and non-recurring nature.

### 2.3.2 Measurement of Profits and Income

Profits or income means net profit or income from any source for any period calculated in accordance with the provisions of the Act.

There shall be deduction for the purpose of ascertaining the profits or income of any person from any source, all outgoings and expenses incurred by such person in the production thereof.....

Profits and Income outside the scope

- Capital Receipts
- Gift
- Donation
- Profits of casual and non-recurring nature

### 2.3.3 Memorandum for Computation.

#### **Profits and Income:**

|                                      |                    |
|--------------------------------------|--------------------|
| Statutory income from employment     | XXXX               |
| Statutory income from dividend       | XXXX               |
| Statutory income from interest       | XXXX               |
| Statutory income from trade etc..... | <u>XXXX</u>        |
| <b>Total statutory income</b>        | <b><u>XXXX</u></b> |

#### **Less: Permitted deductions**

|                          |             |                    |
|--------------------------|-------------|--------------------|
| Annuity                  | XXXX        |                    |
| Ground rent & Royalty    | XXXX        |                    |
| Interest                 | XXXX        |                    |
| Losses                   | <u>XXXX</u> | (XXXX)             |
| <b>Assessable income</b> |             | <b><u>XXXX</u></b> |

|                          |             |                     |
|--------------------------|-------------|---------------------|
| Less: Tax Free Allowance | XXXX        |                     |
| Qualify payment          | <u>XXXX</u> | (XXXX)              |
| <b>Taxable income</b>    |             | <b><u>XXXXX</u></b> |

### 2.3.4 Total statutory income.

The statutory income is the income of every taxable source arose, derived or accrued to any person during a year of assessment. However, income tax liability is computed on the taxable income of a person.

Total statutory income is the aggregated amount of the statutory income from every taxable source.

**Profits and Income:**

|                                      |                    |
|--------------------------------------|--------------------|
| Statutory income from employment     | XXXX               |
| Statutory income from dividend       | XXXX               |
| Statutory income from interest       | XXXX               |
| Statutory income from trade etc..... | <u>XXXX</u>        |
| <b>Total statutory income</b>        | <b><u>XXXX</u></b> |

### 2.3.5 Assessable income.

Assessable income is the residue of the total statutory income after deducting aggregate amount of the deduction specified in S32.

**Annuity:**

Not defined in the act. It is fixed sum received annually under a legal obligation as a recurring or capable of recurring but not in capital nature.

**Ground rent:**

It is known as a rent charged. The regular payment made by the owner of a leasehold property to the freeholder under a lease agreement.

**Royalty**

Payment made by one party to another for the right to use of an asset. Such as patent, copyright, trade mark, industrial design, license for the manufacturing process.

**Interest**

Interest paid on a loan obtained for the construction or purchase of any building or purchase of a land to construct a building, to utilize in trade business profession or vocation and paid under legal or contractual obligation to any licensed bank or any registered finance company.

Other person recognized by the CGIR (i.e a person who declared such interest as income)

### 2.3.6 Losses:

Loss arise from the statutory source

- Deemed loss
- Loss arise from the statutory source

Loss is the loss ascertain as per the manner provided in the Act for the ascertainment of the profits and income. There may be,

- Loss incurred during the YA
- Loss B/F from previous year

**Deemed loss**

The excess of the any sum paid by way of annuity, ground rent, royalty or interest over the total statutory income is treated as loss incurred in a trade.

However, the deduction of loss is limited to 35% of the total statutory income [S32 (5) (b)].

### 2.3.7 Taxable income.

Taxable income is the residue of the assessable income after deducting the aggregate amount of tax free allowance and qualifying payment.

Taxable income of resident individual and charitable institution shall be the residue after deducting the aggregate amount of tax free allowance and qualifying payment. However, taxable income of every other person shall be the assessable income after deduction of qualifying payment [S33 (2)].

### 2.3.8 Qualify payment:

The certain payment and expenses allow to deduct from assessable income to encourage the people [S34(2)].

- Donation to approved charity
- Life Insurance premium paid annually >3 year
- Medical Insurance premium paid for other than incurable disease
- Donation to government funds
- Insurance premium paid for incurable diseases
- Expenditure on government plan - limit to 25000 and balance can be C/F
- Expenditure on film production, construction and equipping of a cinema and up gradation of cinema.
- Expenditure on community development project
  - # In economically marginalize village - Limited to 1,000,000
  - # Investment not less than 50Mn in FA in the expansion of certain undertaking - Max 25% per year
- The profit of the employment income in excess of 500,000/- or 100,000/- whichever is lower.
- Repayment of housing loan obtained by professional - not exceed 600,000/-

Once the taxable income calculated, the relevant tax rate to be applied in computing the gross tax liability of a person.

- Normal rate (4 – 24 percent progressive rate)
- Reduced rate
- Higher rate

|                            |                             |   |                    |
|----------------------------|-----------------------------|---|--------------------|
| Gross tax payable          | = taxable income X tax rate | = | XXXX               |
| Less: Tax credits          |                             |   | <u>(XXX)</u>       |
| <b>Balance tax payable</b> |                             |   | <b><u>XXXX</u></b> |

### Tax Credits:

- PAYE Tax
- WHT on royalty, annuity or management fees
- Tax deducted on dividends
- Self-assessment payment
- ESC
- Double tax relief

## 2.4 Profits from Immovable Property.

Income arising from the ownership of land & improvements thereon are the subject matter for charge the tax on the owner. [S.5,6].

- 1). Net Annual Value (NAV)
- 2). Rent Income
- 3). Occupier's Income

### 2.4.1 Net Annual Value (NAV):

The Net Annual Value of lands and improvements thereon occupied by the owner or on behalf of the owner for the purpose other than trade, business..... Is chargeable with income tax. [S3(c)].

The NAV is a hypothetical or a notional income from property chargeable with income tax. Which is not an income received in monetary terms.

When the owner occupies or someone else occupies on behalf of the owner, NAV is treated as income to the owner.

However, any premises use by the owner for trade, business, profession or vocation is not chargeable with tax as a source.

### 2.4.2 Determination of NAV:

NAV is determined by deducting 25% of the Annual Value - i.e. the value assessed by the local authority for payment of rates- for repair and other expenses. [ S5(2) & S26(3)].

|   |                    |
|---|--------------------|
| <b>Annual Value / Rating Assessment</b>       | <b>XXX</b>         |
| <b><u>Less:</u> 25% Allowance for Repairs</b> | <b><u>(XX)</u></b> |
| <b>NAV</b>                                    | <b><u>XXX</u></b>  |

In case of unrated area, the NAV is determined on the basis of rate which a tenant might reasonably be expected to pay. Generally, Revenue determine NAV of such property at 5% of its capital value.

### 2.4.3 Rent Income: [S3(g)]

Where the property is let, the NAV will not be assessed as income to the owner as the property is not occupied or deemed occupied by the owner. The only source of such property would be the rent income.

However, any income received for using any premise for trade, business, profession or vocation is not the income under source of rent (S217).

Determination of Rent income: [S6]

|   |                   |
|---|-------------------|
| <b>Gross Rent</b>                             | <b>XXX</b>        |
| <b><u>Less:</u></b> Rates borne by the Owner  | <u>(XX)</u>       |
|   | <b>XXX</b>        |
| <b><u>Less:</u></b> 25% Allowance for Repairs | <u>(XX)</u>       |
| <b>Net Rent Income</b>                        | <b><u>XXX</u></b> |

Where the net rent is less than the NAV, then NAV is considered as the income from rent for payment of tax. However, NAV should not be higher than the gross rent receivable. If the NAV is higher than gross rent, then income liable for tax is limited to the gross rent.

### 2.3.4 Furnished House:

Where the owner resides furnished house or bungalow permanently, even it is vacant, is considered as occupied by him. In such situation income from these houses would be the NAV.

However, such house is rented out then there will be income from,

- Unfurnished rent (NAV).
- Profit from furnished.

|  |                    |
|--|--------------------|
| <b><u>Unfurnished rent (NAV).</u></b>        |                    |
| <b>Rental Value (Rating Assessment)</b>      | <b>XXXX</b>        |
| <b><u>Less:</u></b> Rates Paid               | <u>(XXX)</u>       |
|  | <b>XXXX</b>        |
| <b><u>Less:</u></b> 25% allowance for Repair | <u>(XXX)</u>       |
| <b>Unfurnished Rent / NAV</b>                | <b><u>XXXX</u></b> |

|  |                    |
|--|--------------------|
| <b><u>Profit from Furnished.</u></b>   |                    |
| <b>Rent Received</b>   | <b>XXXX</b>        |
| <b><u>Add:</u></b> Rental value of the period occupied/<br>deemed to be occupied by the owner    | <u>XXX</u>         |
|  | <b>XXXX</b>        |
| <b><u>Less:</u></b> Furniture up keeping, Agent's commission,<br>Advertising & Cost of inventory | (XXX)              |
| Rental Value for the year  | <u>(XXX)</u>       |
| <b>Profit from furnishing</b>  | <b><u>XXXX</u></b> |

Income from Rent

NAV/rent income is exempted from tax in respect of the house is used solely for the residential purpose.

- Once place of residence of an individual.  
When there are two or more premises, then the highest NAV is exempted.
- House constructed on or after 01.04.2008.  
FA < 500 sqft - Year of construction completed + 4 years.
- House converted into two or more place of residence.
  - FA < 1000 sqft - Year of conversion + 5 years.
  - 2000 < FA < 1000 sqft - Year of conversion + 3 years.
- Property owned by a body of person for promotion of sports.
- Any place of public worship
- Any premises owned and occupied by charitable institution for its purpose.

## 2.5 Occupier's Income:

Occupier's income is the benefit accrued to a tenant. Such situation arises where the gross rent paid by tenant is less than the NAV of the Property.

### **Occupier's Income:**

**Net Annual Value**

**XXXX**

**Less:** Rent paid by the occupier

**(XXX)**

**Occupier's income**

**XXXX**

In the following circumstances, occupier's income does not arise.

- Person occupies in a trade, business, profession or vocation.
- Person occupies on behalf of the owner.
- Person occupies the house provided by an employer.

## 2.6 Profits from any employment

A profit from employment is a source of income chargeable with tax: [S. 3(b)].

The basis of assessment is the profits arising out from the employment during the year of assessment.

- There must be an employer employee relationship
- Payment made for service of employment

### **Conclusive Test:**

- Master-Servant relationship.
- Periodicity of payment.
- Contract of employment/Service.

..... It is observed that the kinds of receipts ..... with the item wages and going down to perquisite are receipts in respect of a person's service as employee....

The statute requires that these receipts must be payments “which an employee receives in the course of his employment”.: [Wimalasundera J. Kanagasabapathy vs. CGIR (4CTC131)].

Profits from employment is defined to cover wages, salary, allowance, leave pay, ..... in money which an employee receives in the course of his employment. [S.4(1)(a)(i)].

### 2.6.1 Employer: [S. 131].

An employer for the purpose of PAYE means any person, partnership, body of persons or any organization, other than any Government Institution referred to in Chapter XV:

- for whom an individual perform services as an employee;
- paying any profits from employment within the definition “profits from employment”;
- paying any pension or other remuneration to a former employee or to any other person, for the past service of such employee.

It is important to understand whether an individual is carrying on an employment or profession or vocation.

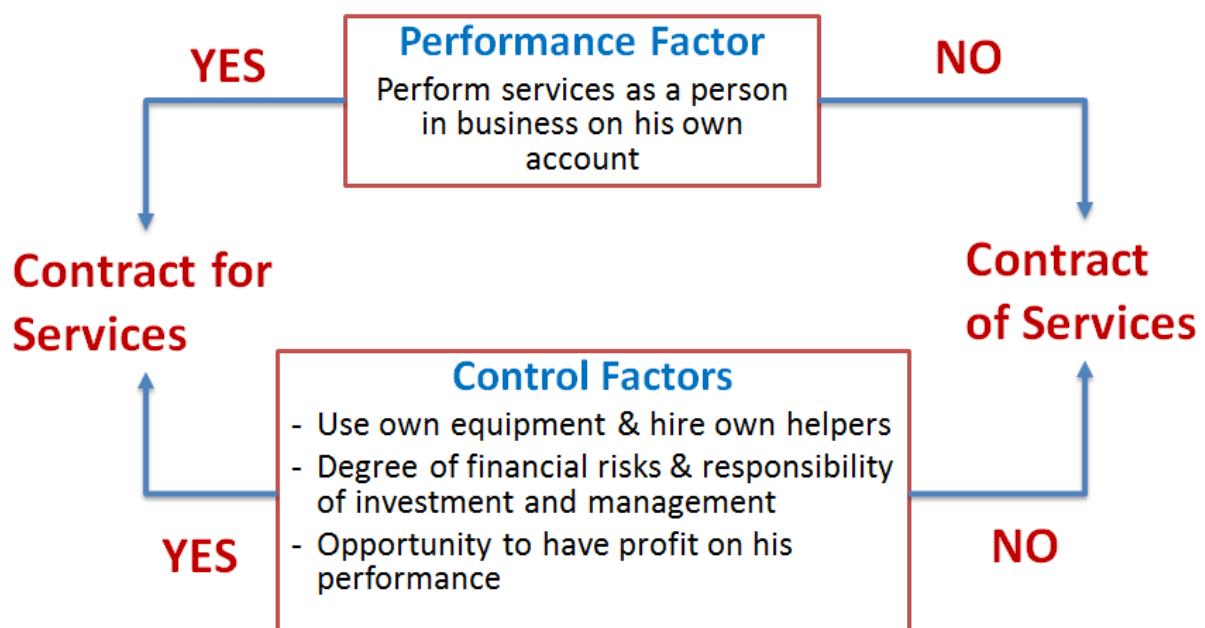

.... series of engagement and moving from another could not be considered an employment .....

[Rowlatte J. in Davies vs. Barithwaite (18TC198)].

### 2.6.2 Fundamental Test:

It is a test to be applied in distinguishing between a contract of service and a contract for services.

[Cooke J. Market Investigators Ltd vs. Minister of Social Security, 1969: 2QB173)].

### 2.6.3 Consideration and Motive

The mere fact that the payment is made to the employee as a result the employment is not enough to make liable for tax.

Where there is no consideration but merely to motivate, the payment made in view of the exceptional past services is a personal gift and not liable for tax.

[Craib Vs. CIT, 1CTC138]

### 2.6.4 Profits from employment includes: [S.4(1)].

- Payments for services whether received from the employer or others.  
Eg: Any wages, salary, allowance, leave pay, fee, commission etc
- The value of any benefit received by the employee or spouse, child or parent.  
Eg: Free medical benefits, meals, fuel, electricity, transportation etc..
- Any payment made to any other person for the benefit of the employee or spouse, child or parent.  
Eg: Payment of IT, insurance premium, loan repayment, rent, lease rental etc.
- Payment received by the employee on termination of service.  
Eg: Pension, retiring gratuity, compensation for loss of office, ETF withdrawals etc.
- Payments for services whether received from the employer or others.
- The payment received from an employment include anything in money or money worth.
- Regular cash benefits:  
Eg: Salary | Allowance | Leave pay | Commission | Bonus

The value of any benefit received by an individual is determined

- at the market value
- Cost incurred

#### Conveyance:

Motor vehicle provide to an employee for private use is a profit from employment.

|                         | <b>Cylinder Capacity</b> |                     |
|-------------------------|--------------------------|---------------------|
|                         | <b>&gt; 1500CC</b>       | <b>&lt; 1500 CC</b> |
| Driver and Fuel         | 50,000                   | 35,000              |
| Fuel without Driver     | 35,000                   | 25,000              |
| Driver without Fuel     | 30,000                   | 20,000              |
| Without driver and fuel | 15,000                   | 10,000              |

Motor bicycle provide to an employee for private use is a profit from employment.

|                       |           |
|-----------------------|-----------|
| Provided with fuel    | Rs. 5,000 |
| Provided without fuel | Rs. 3,000 |

Records for private usage is maintained,

|               |               |
|---------------|---------------|
| Motor vehicle | Rs. 15 per km |
| Motor bicycle | Rs. 3 per km  |

### 2.6.5 Rental Value:

When the employer provided an accommodation to an employee for rent free or at lesser rent then the benefit to be taxed,

- Rent free – Rental value is the benefit to be taxed
- Lesser rent - Excess of the rental value over the rent

| Aggregate Profits | Rental Value |
|-------------------|--------------|
| < Rs. 1.8 Mn      | Rs. 120,000  |
| >Rs. 1.8 Mn       | Rs. 180,000  |

In the case of provision of a furnished house, the value of furnished house is to be calculated as follows,

- 2.5% of the gross remuneration or
- Rs. 18,000/- per annum

Benefit from furnished house is limited to Rs. 18,000/-.

### Estate Bungalow:

- 7.5% of the GR
  - Rs. 2,000/- per month
- Which ever is higher

## 2.7 Trade, Business, Profession or Vocation

The profits of any trade, business, profession or vocation is a source chargeable with tax even short a period such trade, business, profession or vocation was carried out or exercised.

Therefore, it is important to understand the meaning of these phrases.

Section 217 of the Act defined the meaning of trade and business. However, the word profession and vocation are not defined in the Act.

### 2.7.1 What is Trade?

The definition of trade includes every trade and manufacturing and every adventure and concern in the nature of trade [§1217].

It implies that the trade or business must be systematically carried on or exercised and cannot apply to isolated transactions (Grainger & Son Vs. Gough, 3TC462). Repeated and systematic transactions may lead to the conclusion that a trade is being carried on (Pickford Vs. Quirke, 13TC251).

Trade normally involves the exchange of goods for rewards. It must be with someone and bilateral.

However, trade cannot be precisely defined, but certain characteristics can be identified  
[Lord Wilberforce in Ransom Vs. Higgs, 50TC1].

The decided cases guide to understand what constitute an adventure in the nature of trade.

#### **Adventure and concern in the nature of trade or isolated transaction:**

##### **Profit motive**

Taxpayer entered into an agreement to purchase a tea state by paying an advance. Further, he agreed to complete the transaction within a short period of time. Since they did not have sufficient finance they procured only the part of estate as a source of green leaf for their tea factory and the part was sold at a profit.

It was clear that the purchase of estate was not for themselves. And, held that the transactions were an adventure or concern in the nature of trade.

[DS Mahavitharana Vs. CIR (3CTC156)]

##### **Sufficient finance resources**

Assessee's wife was entered into an agreement to purchase 433 perches land adjoining St. Bridget's Convent. However, they didn't have sufficient money and even the deposit was paid by borrowed money.

Soon after the agreement they block out the land and number of blocks were sold at a profit.

Assessee argued that the dominant interest to live near St. Bridget's Convent was to facilitate the children's education.

It was held that, assessee did not have sufficient funds and the land to be sold to pay the balance due to landlord.

It was decided that it was an adventure in the nature of trade.

[Ram Ishwara Vs. CIR (3CTC184)]

## Isolated Transaction

The assessee's wife owned a block of land and undivided shares in surrounding lands. These lands had been requisitioned during the war and the Navy had erected hangers and building. These building given back free of charge to assessee along with land. Later, hangers and building was sold and make a profit.

*Supreme Court held that:*

Buying and selling to constitute as trade, there should be some amount of repetition in the act of buying and selling. Therefore the transaction was an isolated one and not have the characteristic of an adventure in the nature of a trade since it does not involve the repletion of activity

[CIR Vs. De Zoysa (1CTC524)]

### 2.7.2 What is Business?

In Section 217, Business defined to include an agriculture undertaking, the raising of horses, the letting or leasing of any premises including any land by a Company and the forestry.

According to the decided case trade or business must be systematically carried on or exercised and cannot apply to isolated transactions. We can identify some factors in determining that whether the transaction is an adventure in the nature of trade.

- Intention to re-sell (profit making motive)
- Alteration to the subject matter
- Repetition and systematic transaction
- The length of ownership
- Financial Resources

### 2.7.3 Profession or Vocation

Profession or vocation has not been defined in the act. It is a question of fact whether an individual is carrying on a profession or vocation.

A profession is an occupation that requires either purely an intellectual skill or manual skill controlled by the intellectual skill of the operator (CIR Vs. Maxse, 12TC41). Eg: medicine, law, engineering, auditing and tax practice etc.

It is an important fact that, a membership of a professional body with a standard of conduct is a leading factor for deciding whether the profession is exercised, but it is not conclusive factor (Durant Vs. CIT, 12TC249).

However, all profession are business and all business are not profession. A profession requires professional qualities and qualifications and a company is incapable of acquiring the necessary qualification and qualities (Esplen Sons & Swanston Ltd Vs. CIR, 1919KBB731).

A vocation is an occupation which a person is specially drawn or for which he or she is suited, trained or qualified. In this case the formal qualification is not required. Eg: Singers, players, actors and musician etc.

## 2.7.4 Ascertain Profits and Income

The profits and income chargeable with tax is the net profits or income. Unlike other sources, in ascertaining the profits and income all outgoings and expenses incurred in the production of income including certain specified expenditure are allowed (\$25(1)).

In ascertaining profits and income it is important to consider;

- Allowable Expenses (\$25)
- Disallowable Expenses (\$26).

### 2.7.4.1 Allowable Expenses \$25.

General rule is that expenses and outgoings must be deductible only if they are incurred in the production of income.

Loss considered as an outgoing.

The company was carrying on the business of buying and exporting commodities has suffered a loss of money kept in the safe for the purpose of purchased rubber.

The money in the safe was indented to replenish stock in trade and thus its loss would be equivalent to a loss of stock-in-trade. The loss was out of circulating capital of the Company. Thus, the loss incurred was something incidental to the business and would deduct in order to ascertain its net profits.

[Hayley and Co. Ltd Vs. CIR (3CTC115)]

### 2.7.4.2 Capital Allowance \$25(1)(a)

The allowance for depreciation by wear and tear of any qualified capital assets use in any trade, business, profession or vocation at a fixed rate on the cost of acquisition or construction or assembly permitted to be deducted.

| <b>Asset</b>  | <b>Up to<br/>YA<br/>2010/11</b> | <b>From<br/>YA<br/>2011/12</b> |
|---|---------------------------------|--------------------------------|
| Information technology equipment and calculating equipment including accessories and software                                   | 25%                             | 25%                            |
| Any software developed in Sri Lanka   | 100%                            | 100%                           |
| Any motor vehicle or furniture  | 20%                             | 20%                            |
| Machinery or equipment and any plant  | 12.50%                          | 33 1/3%                        |
| Any bridge, railway track, reservoir, electricity or water distribution line and toll roads                                     | 6 2/3%                          | 6 2/3%                         |
| Any qualified building constructed  | 6 2/3%                          | 10%                            |
| Any plant or machinery used in any business of carrying out construction work (after April 1, 2007 but prior to April 1, 2011 ) | 25%                             | 33 1/3%                        |

|   |         |         |
|---|---------|---------|
| Any plant or machinery used in any business of providing health care, printing on paper, gem cutting and polishing, packaging of any commodity for commercial purposes, rice milling or such other business as may be prescribed by the Commissioner- General | 33 1/3% | 33 1/3% |
| Any high tech plant, machinery or equipment use for energy efficiency purposes *  | 12.50%  | 50%     |

\* Where high tech plant machinery or equipment acquired on or after April 1, 2013 and used in any trade or business meets more than thirty per centum of the total requirement of the power generation of that trade or business out of alternative energy sources - one hundred per centum on the cost of acquisition.

Alternative energy source means any source other than the National Grid that generates power.

#### 2.7.4.3 Disposal of capital assets (\$25(3))

When a capital asset on which depreciation allowance claimed is disposed, the profits and income arising on such disposal to be taken in ascertaining the profits and income.

Adjustment arise;

- a). Depreciation allowance equal to the cost of acquisition has been claim - Total proceeds of the disposal is treated as profits
- b). Allowance for depreciation claimed is less than the cost of asset - Profit or loss is the deference between the disposal proceeds and the tax written down value if such capital asset not replaced.
- c). Asset on which the capital allowance claimed is disposed and the proceeds used within one year in replacing such assets - Profit not recognized to charge the tax. The amount of the profits is reduced from the cost of acquisition of the replaced asset. Therefore, the cost of new asset for depreciation purpose is calculated.

Profits/Loss on disposal of capital assets;

$$DP = SP - TWDV$$

$$(C - CAC)$$

Depreciable value of new asset on replacement;

$$DV = C - DP$$

- Relation of Agency
- Community in loses and profits
- Participate for the share of capital

[CIR V. Williamson (14TC365)]

### 3.2.1 Legal Status of Partnership

Partnership is an arrangement through which individuals carry on a trade, business, profession or vocation. Therefore, Partnership is not a legal person.

However,

Under the Prevention of Frauds Ordinance requires the partnership to establish by written agreement when the capital is over and above Rs. 1,000/-.

If the name of the business is different from that of the partners, then it should be registered as per Business Name Ordinance.

As the Partnership does not have the legal personality, Precedent Partner is liable to attend all the matters to be done by Partnership (\$191(1)).

### 3.2.2 President Partner:

Active partner who is resident in Sri Lanka,

- The person whose name in the first place in the agreement;
- The person whose name or initials precedent to the other partners in the name of partnership;
- The first name in the business registration.

### 3.2.3 Imposition of Income Tax

Under Section 2 of the IRD Act, profits and income charged from a person. But in the definition of person, partnership is excluded.

Even the charging section not cover the partnership to liable for tax, IRD Act No. 38/2000 introduced special provision to bring the partnership in the tax net.

Income tax is imposed on partnership under a section 78 of the Act. Accordingly, the method of computation of tax liability is different from a normal person.

Partnership is chargeable with income tax in respect of,

- Divisible profit and,
- Other income (rent, interest, dividend, annuity, royalty & discount etc.)

are in excess of Rs. 1,000,000/- at the rate of 8%.

[S78 – 10/2006]

### 3.2.4 Divisible Profit.

Divisible profit/loss is the profit/loss calculated in accordance with the provisions in the Act relating to the ascertainment of profits and income of person.

However, there is a special provision that no deduction should be allowed towards remuneration and interest paid to partners in computing the adjusted profits.

[S76 – 10/2006]

#### Computation of Divisible Profits:

|  |             |                    |
|--|-------------|--------------------|
| <b><i>Adjusted profits from trade, business<br/>Profession or vocation</i></b> |             | <b>XXXX</b>        |
| <b><u>Less:-</u></b>   |             |                    |
| Annuity and/Interest paid  |             | <u>(XXX)</u>       |
| <b><u>Add:-</u></b>  |             |                    |
| Remuneration paid to partners  | XXXX        |                    |
| Interest on partners' capital  | <u>XXXX</u> | <u>XXXX</u>        |
| <b>Divisible Profit</b>  |             | <b><u>XXXX</u></b> |

### 3.2.5 Distribution of Profits

Profit arising from partnership are the profit of the individual partners who carry on the business in the form of partnership. Therefore, income tax liability of partners are not limited to 8% tax paid by the partnership.

### **Distribution Rule:**

- Divisible profits – profit sharing ratio (this should be treated as profit from trade, business, profession or vocation).
- Other income - profit sharing ratio (this should be treated as profit from other source).
- Divisible loss - profit sharing ratio (this should be treated as loss arising from trade, business, profession or vocation).
- Qualifying payments - profit sharing ratio.
- Tax paid - profit sharing ratio.

### **3.2.6 Income of spouse in Partnership.**

Under section 25 (6) of the Act, profits and income received by one spouse for service rendered in a partnership of which other spouse is a partner shall be deemed to be the profits and income of that other partner.

Accordingly, the payment made by the partnership to a spouse of a partner is construed as an expenses incurred in the production of profits and income of partnership is deductible in arriving at the divisible profit of the partnership. However, such payment is to be considered as the income of the relevant partner whose spouse is received the payment for service rendered.

### **3.2.7 Sub Partnership**

Act does not defined what constitutes a partnership. However, according to section 217 partnership shall not include any disposition, trust, grant, covenant, agreement, assignment, settlement, or other arrangement by which the share of the divisible profits or the divisible loss of a partner of any partnership, is shared with any other person or partnership.

The above definition expects to exclude of creating a sub-partnership to share the profits of a partner within a partnership.

The reason behind this enactment was not to allow the sub-partnership considered as a valid partnership in the case of A.A. Davoobhoy vs. CGIR (4CTC122).

The taxpayer, Abasbhoy Davoobhoy was one of five partners of a firm carrying on business under the name of “Abdul Hassen Davoobhoy” and was entitled to one fifth share of its profits. He entered into a agreement with his children to share only the one fifth of the profits he received from the partnership.

Agreement and the rights claimed under the agreement were rejected by the Assessor and subsequent to that the case was heard by the Court of appeal and answered against the tax payer. The taxpayer appeal to Supreme Court,

It was held that,

- The agreement is not artificial and fictitious. And the agreement cannot be rejected under the law.
- Sub-partnership is a convenient name used in law and in commercial circle to describe a partnership is depend on another partnership. Therefore, such agreement is perfectly valid in civil law and therefore, attract the IRD provisions.

[A.A. Davoobhoy vs. CGIR (4CTC122)]

### 3.3 Taxation of Club & Trade Association

A club is an association of two or more people united by a common interest. Therefore a club is owned by members who carry out activities collectively.

A trade association is known as an industry trade group, business association or sector association. Many associations are not for profit oriented organizations governed by the officers who are members. Therefore, trade association also owned by members.

Club and trade associations are considered as a body of person is chargeable with income tax under section 2 of the IRD Act.

#### 3.3.1 Basis of Liability

The liability to tax of a Club or Trade Association (CTA) depend on the circumstance that,

- Deemed not to carry on a business.
- Deemed to carry on a business.

Where the CTA is not to carry on business will be liable to tax only on its investment income. However, if it is deemed to be carry on business will be liable to income tax on both investment income and business income.

##### 3.3.1.1 Deemed not to carry on a business

A Club or similar institution is liable to income tax on its investment income in the circumstances in which it is not deemed to carry on business.

A Club is not deemed to carry on business where it receives from its members not less than three-fourth of its gross receipts on revenue account including entrance fees and subscriptions

[S101(1)].

In such situation, CTA is chargeable with income tax only on its investment income,

- Income from property. Such as rent and NAV etc.,.
- Interest income
- Dividends

### 3.3.1.2 Deemed to carry on a business.

A Club is deemed to carry on business where it receives less than three-fourth of its gross receipts from members on revenue account including entrance fees and subscriptions

[S101(1)].

When a club is deemed to carry on business, the whole of the income arising from transaction both with members and others shall be considered as receipts from business and liable to pay tax on both its profits and investment income.

### 3.3.2 Gross receipts on revenue account

The gross receipts from members on revenue account include the followings,

- Entrance fees
- Subscriptions
- Donation from members
- Any other receipts from members

Income arising from transactions with members and others are,

- Entrance fees
- Subscription
- Receipt in respect of business transaction
- Receipt from fund raising activities. Eg. Carnival
- Benefit show

### 3.3.3 Computation of income tax of club

Whether the club is carrying out a business or not whole profits and income should be aggregated in computing total statutory income.

The assessable income of a club is derived after deducting the income not form a part of assessable income and deduction permitted under S32.

Taxable income of a club is the amount arrived after the deduction of qualifying payments from assessable income.

Taxable income of a club is liable to pat tax at 10%.

### 3.3.4 Computation of income tax of a Trade Association

The tax liability of a trade association, a chamber of commerce or similar institution depend on the institution is deemed to carry on business or not during the Y/A.

It is deemed to carry on business where more than half of its receipts by way of entrance fees and subscriptions are from persons who claim or would be entitled to claim as allowable deduction under section 25.

Where a trade association is deemed to carry on business, it will be liable to tax on the higher amount of,

- Business income
- Investment income

#### 3.3.4.1 Business income.

Business income is the profits and income computed in accordance with the provision of the Act. In computing the profits of the business, the whole of the income arising from transactions both with members and others including entrance fees and subscriptions will be deemed to be the receipts of such business.

Members in relation to club or trade association mean, those persons who are entitled to vote at a general meeting of the body which exercises effective control over its affairs.

### 3.4 Practice Questions

#### **e** 3.1

3. Calculate Business profits, if any.
4. Calculate statutory income from other source.
5. Calculate total statutory income, assessable income, and taxable income.
6. Calculate tax payable of Foot Ball Club for the Y/A 2014/15.

## Module 4: Taxation of Companies.

Outline:

- Definitions of corporate bodies.
- Tax structure of a Company.
- Resident and Non-resident Company.
- Basic understanding of Thin Capitalization and Transfer Pricing.
- Distribution Rules.
- Director's responsibilities and liabilities.
- Remittance tax.
- Computation of Tax Liability of a Company.

### 4.1 Definition of a Company

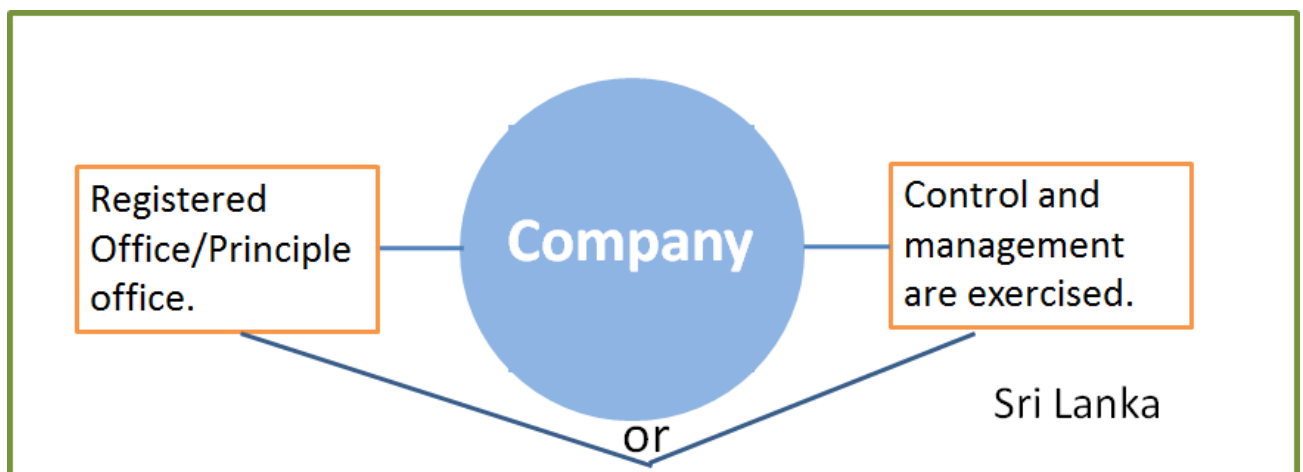

A company is a form of business organization recognized in law as a legal person with separate identity from its owners.

Company means, any Company incorporated or registered under any law in force in Sri Lanka or elsewhere and includes public corporation.

Public Corporation means, any corporation, board or other body which was or is, established by or under, any written law, other than the companies Act, No 7 of 2007, with capital wholly or partly provided by the Government, by way of grant, loan or other form.

[S217/2006-10]

### 4.2 Residential Status of a Company

[S79(1)/2006-10]

## 4.3 Thin Capitalization Rule

The implication of thin capitalization rule arise on the income arising from investment in equity and loan capital in corporate entity.

The associate company receives the interest is subjected to tax in full amount of the interest income. However, there is a limitation for the deductibility of the interest in the hands of associated companies in the case of loan obtained from a holding company by a subsidiary or holding company from a subsidiary company.

### Manufacturing company (3:1)

Interest above 3 time of issued share capital and reserves (equity).

Company shall be a manufacturing company where more than 50% of the turnover is from the sale of products manufactured by such company.

$$\frac{\text{Loan} - (3 \times \text{Equity})}{\text{Loan}} \times \text{Interest} = \text{Disallowable Interest}$$

### Non-manufacturing company (4:1)

Interest above 4 time of issued share capital and reserves (equity).

$$\frac{\text{Loan} - (4 \times \text{Equity})}{\text{Loan}} \times \text{Interest} = \text{Disallowable Interest}$$

[S26 (x), (y)/2006-10]

### Income not form part of assessable income.

1. Interest income from corporate debt securities subject to WHT.
2. Rewards or share of fine subject to WHT at 10%.
