

24th October 2013: The much anticipated 34th National Conference of Chartered Accountants was inaugurated on Thursday evening at the Water's Edge, Battaramulla by Chairman of Maruti Suzuki India Limited, Mr. R C Bhargava in the presence of the country's corporate glitterati including top business leaders, government officials, accounting leaders and foreign panelists.

The conference organized by the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka), was further boosted with a high profile keynote speech delivered by Hon. Ruth Richardson, former finance minister of New Zealand.

The conference which explores an inspiring and relevant theme "Innovate to Grow" will conclude on October 26th 2013 following two days of technical sessions which will be conducted by a versatile team of foreign and local panelists who will delve in detail on the importance of bringing in innovation to ensure sustainable growth.

Over the years, the conference has attracted an unprecedented number of participants, and this year too will see some 1200 participants during the technical sessions which will also be held at the Water's Edge, while the live webcast feed of the conference proceedings has also attracted over 100 registrations from accountants both in Sri Lanka and abroad.

For the first time in the 34 year old conference history, participants of the national conference will also be issued with a Near Field Communication (NFC) card, a smart card.

The card offers ease of access to participants and members, significantly reducing their waiting time in long queues, while also tracking the attendance of members for various programmes including the conference organized by CA Sri Lanka.

CA Sri Lanka introduced the concept of national conference to Sri Lanka in 1979. The conference, over the last three decades has built a reputation, as a business summit that provokes thoughts and spurs insights into broad economic and business issues; apart from its core emphasis on finance related topics, while making it one of the most attended corporate events in the country.

In the light of the challenges facing the world today, innovation has become a crucial factor in deciding the global competitiveness of nations and organisations across boards. The capability to innovate and bring innovations successfully to markets therefore has become a common challenge ahead of organisations and professionals.
