The CA Sri Lanka qualification has gained reputation both locally and internationally as a qualification that produces accounting professionals of distinction who have the ability to steer businesses across any sector. Chartered Accountants are well known for their multi-faceted technical skills and unique business acumen, apart from building a reputation as the brains behind successful businesses, both in Sri Lanka and overseas.

Chartered accountants also command respect across the world due to their high professional ethics and values. CAs are well known to climb the ladder of success faster and hold distinguished corporate positions such as Chairperson, Director, CEO, CFO and Partner, among other high profile positions across diverse sectors in the business world.

The CA Sri Lanka curriculum is updated regularly with the aim of producing highly versatile Chartered Accountants, who possess the ability to steer businesses across all sectors by partnering businesses with their sound financial leadership.

The CA curriculum is designed to ensure that the future chartered accountant goes beyond its traditional financial role and becomes a true partner in business who will create value, enable value, as well as preserve value and report value to the organization they serve.

Students following the CA programme are also offered two early exit routes; Certified Business Accountant (CBA), and Certified Senior Business Accountant (CSBA).
