

The "Future of Finance" and the need ensure the continued relevance and employability of current and future holders of the accounting qualification became the focus point at an evening session recently organised by CA Sri Lanka, in its capacity as the leading accounting body in the country.

President of the Chartered Institute of Management Accountants (CIMA) Mr. Steven Swientozielskyj was a special guest at the event, and also delivered a presentation on the "Future of Finance" global research project.

During his presentation, he noted that the project was designed to bring together different organisational views to create insight into the process of change, synthesise a composite picture of the finance function of the future, and to ensure the continued relevance and employability of current and future holders of the qualification.
