

In a corruption, fraud and cyber-crime rampant world, the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka), in its capacity as an influential professional body, has played an exemplary role in strengthening the skills of professional accountants and accounting students to combat these growing dangers.

In line with this important objective, CA Sri Lanka annually conducts two vital programs, namely the Diploma in Information Systems Security Control & Audit (DISSCA) and the Certificate Course in Forensic Accounting to inculcate specialized skills among professional accountants to help them fight these risks.

CA Sri Lanka recently recognized 50 students who had successfully completed both courses conducted by the Institute. At an awards ceremony, 30 professional accountants including Chartered Accountants who had successfully completed the forensic accounting course were awarded certificates by CA Sri Lanka's President Mr. Jagath Perera. Another 20 students who completed the DISSCA program were awarded diploma certificates by CA Sri Lanka's CEO Ms. Dulani Fernando.
