

25 July 2022

Dear Student,

**Survey to help understand students' preparedness to sit for Business Level II exams in English**

We refer to the student communication released recently by CA Sri Lanka announcing that the medium of assessment for the Business Level II exams under Curriculum 2019 will only be in English from 2023 onwards.

This decision was taken by CA Sri Lanka having understood the importance of English as a language in a global context, which we believe will be immensely helpful to increase the confidence of our students and help them face the challenges of the future corporate world ready.

We are currently looking at introducing the English medium exams for Business Level II in a flexible manner to ensure the language does not hamper the performance of our students. Therefore, to help us understand your requirements and concerns, we request that you take a few minutes to fill out the survey and submit it on or before 31st July 2022.

Your response will help CA Sri Lanka identify the issues faced by you, and take the necessary steps to provide you with the required support and guidance.

Please note that this survey is **only for Business Level students**. Therefore, if you are a Corporate or Strategic Level student, please ignore this communication.

**Click here** to open the form.

Thank you,

Yours sincerely,

**THE INSTITUTE OF CHARTERED ACCOUNTANTS  
OF SRI LANKA**
