The CA Business School of the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) which has been in the forefront of professional development has once again commenced its intake for the prestigious Australian MBA programme offered in Sri Lanka through the University of Southern Queensland (USQ).

The USQ MBA ranked as one of Australia s top 20 masters programmes covers an extensive syllabus and offers a range of exemptions for professional and other academic qualification.

With registrations for the next semester now open till 31st May 2012, the USQ MBA is seen as a gateway for professionals to achieve their highest professional ambitions in today s competitive world where high end and internationally recognised professional qualifications are deemed essential to succeed in one s career goals.

Offered at a very competitive rate, the course which is conducted over a period of three semesters has been recognised as one of the most successful MBA programmes offered in the country due to its high intake of students since inception over a decade back when it was introduced to Sri Lanka.

Chartered qualified Professionals also have a distinct advantage as they are exempted from four subjects when they enroll for the MBA programme.

Intake now open for world renowned MBA offered by CA Sri Lanka Business School
